

CONSTRUCTION & TRADES

PATHWAY PROSPECTUS

2024 - 2025

DISCOVER THE **CONSTRUCTION & TRADES** PATHWAY

Our Construction and Trades pathway has been meticulously developed to provide progression from level 2 through to advanced level courses. Consisting of Skills Bootcamps, Apprenticeships and Higher Technical Qualifications there are funding options and eligibility requirements that enhance accessibility onto the pathway.

WHO WE WORK WITH

Anchored by our ethos as an employer-led provider, our mission is to offer unparalleled, industry-relevant apprenticeship programmes to a diverse spectrum of organisations.

GLP Training is the preferred training partner for a broad array of companies, ranging from small local businesses to enterprising start-ups and established multinational corporations, spanning the length and breadth of the UK.

With GLP Training, organisations are not just opting for an apprenticeship provider; they're choosing a partner committed to their long-term growth and success, empowering their workforce, and ultimately driving their business forward.

EMPLOYERS

Bidvest have been working with GLP Training for over a year now and they have been very easy to deal with. They have enrolled over 160 of our staff on to different training courses that we have developed together. The support we receive is second to none and due to the nature of the business, the flexible delivery hours and night shifts have been invaluable and something other providers are unable to truly provide.

Mark Hobden DBCI MBCI M.ISRM
Director of Operations Support

GLP Training have been working within the food retail and logistics sector since 2017 with clients such as: XPO Logistics, Cordant, Interserve, Greencore, IDS Transport, Nuffield, Sainsbury's Argos (DC's), Bidfood, Co-Operative, Primafruit, Air sea containers, LIDL and of course ALDI. GLP Training are absolute stars with recruitment. Account management is very efficient, they handle everything professionally and are so helpful in situations where I either don't have all the info required or need something at short notice. Paige is always cheerful and has a lovely sense of humour.

Lauren Edwards
Talent Development Coordinator
Graduates and Apprenticeships

LEARNERS

I have been really enjoying the qualification, I wasn't sure what to expect and was worried that taking on an apprenticeship while working full time would be too much, however the pace of the course and the workload is perfect. I'm learning a lot of new things and feel very supported by GLP Training.

Charlotte
Facilities Management Supervisor Level 3

The apprenticeship at GLP Training under Dean Price has benefited me greatly as it has taught me new skills as well as helping to improve my pre existing skill base. Dean has been a big help in this, providing extensive knowledge of tasks as well as always being there in case of any queries. The best part of the apprenticeship was learning new skills in the always relaxed, friendly yet professional environment and I would most definitely recommend the course to any colleagues looking to expand their skillset and further their careers.

CONSTRUCTION & TRADES PATHWAY

The construction and trades industry is a critical pillar of the UK economy, yet it faces significant skills shortages. GLP Training is dedicated to addressing this gap with our Construction & Trades pathway, designed to cultivate the skills most sought after in the sector. Our offerings range from Level 2 bootcamps that include CSCS card acquisition, to specialised apprenticeship programmes, and construction management HTQs tailored for contemporary construction leadership. Our courses blend hands-on practical skill development at our state-of-the-art Worcester training centres with remote instruction that covers essential theoretical knowledge.

PROPERTY MAINTENANCE OPERATIVE

The Property Maintenance Operative Level 2 Apprenticeship is a comprehensive training programme that prepares individuals for a career in property maintenance. This apprenticeship covers a range of topics, including health and safety, carpentry, plumbing, electrical systems, painting and decorating, and building maintenance.

Upon completion of the apprenticeship, apprentices will have a solid understanding of the property maintenance industry and will be able to work effectively in a variety of settings, including residential and commercial properties. They will also be equipped with the skills and knowledge to diagnose and repair common property maintenance issues, such as leaks, electrical faults, and structural damage. As a Property Maintenance Operative, they will play a vital role in ensuring that properties are well-maintained, safe, and comfortable for occupants. This apprenticeship involves 2 days of practical training block release every quarter at our Worcester Training Centre.

Level 2

£0 to £700

Maximum cost for non-levy employers and micro-businesses

15+ months

Approximate on-programme training
(does not include EPA period)

£14,000

Maximum cost/funding for levy employers

Knowledge

- Types of building structures, materials and components
- Regulatory compliance
- Hand and power tools
- Quality assurance and continuous improvement
- Environment and sustainable practice
- Health and safety
- The principles and requirements of Planned Preventative Maintenance (PPM) and Reactive Maintenance
- Risk mitigation
- Handling information and data

Skills

- Planning for maintenance
- Ensuring isolation of electrical systems
- Routine testing of emergency systems
- Plumbing and drainage repairs
- Ground drainage
- Repairs of windows, doors and glazing
- Remedial repairs to plastering
- Painting and decorating works
- Repairs to tiling and flooring
- Customer service
- Fencing and railings
- Cutting and fitting masonry

Behaviours

- Professionalism
- Integrity, reliability, motivation
- Flexible attitude
- Commitment to quality and excellence
- Perform under pressure
- Team focuses to meet goals
- Seek learning and development opportunities
- Prioritise and promote health and safety

Modules are delivered holistically through-out the programme.

APPRENTICESHIP

CARPENTRY AND JOINERY

The Carpentry and Joinery Level 2 Apprenticeship equips individuals for a promising career in carpentry and joinery. The apprenticeship curriculum spans a diverse array of topics, including health and safety, basic carpentry techniques and fundamentals of joinery, use of hand and power tools, problem-solving, understanding construction drawings, and teamwork.

Upon completion of the apprenticeship, apprentices will possess a firm understanding of carpentry and joinery. They will be prepared to deliver quality craftsmanship in various settings such as residential construction, commercial construction. They will also acquire the skills and knowledge needed to read and interpret blueprints, work with a variety of materials, and resolve construction challenges.

As a trained carpenter and joiner, they will play a crucial role in building and maintaining the physical world around us. They will be capable of working efficiently as part of a team, communicating effectively, and representing their organisation in a professional manner. These skills pave the way for their progression to more advanced roles within their organisation, such as becoming a master craftsman, or allow them to pursue further training in specialised areas of carpentry and joinery.

Level 2

£0 to £650

Maximum cost for non-levy employers and micro-businesses

24+ months

Approximate on-programme training
(does not include EPA period)

£13,000

Maximum cost/funding for levy employers

Knowledge

- Health, Safety and Welfare including Working at Height
- How to use Personal Protective Equipment
- Construction terminology
- The Fundamentals of Joinery
- Timber properties (quality & wood standards)
- Types of Building Structures, Materials and Components
- Hand and Power tools
- How different types of fixings work
- Structural carcassing
- Interpreting plans such as CAD
- Methods to install ironmongery

Skills

- Hand and Power Tools
- Interpret information drawn from plans such as CAD
- Measuring, marking and cutting wood
- Installing timber frames and erecting timber
- Installing handrails and spindles for stairs
- Installing floor joists and coverings
- Erecting roof rafters
- Marking out doors, door frames and windows
- Install a range of ironmongery components for doors, windows and units

Behaviours

- Effective communication
- Effective team working
- Independent working
- Logical thinking
- Working effectively
- Time management
- Adaptability

Modules are delivered holistically through-out the programme.

APPRENTICESHIP

ADVANCED CARPENTRY AND JOINERY

The Advanced Carpentry and Joinery Level 3 Apprenticeship offers an ideal progression route from the Level 2 apprenticeship, providing a deeper dive into the world of carpentry and joinery. This apprenticeship covers more complex topics, including intricate joint making, timber frames, interpreting detailed construction drawings and CAD, fixing machinery and second fittings.

Upon completion of the advanced apprenticeship, apprentices will have a comprehensive understanding of advanced carpentry and joinery techniques. Building on the skills and knowledge gained from the Level 2 apprenticeship, they will be equipped to take on more complex projects in residential and commercial construction. They will be able to interpret detailed blueprints, manage a diverse range of materials, and address intricate construction challenges.

As advanced carpenters and joiners, they will play an integral role in crafting and maintaining sophisticated structures and pieces and intricate architectural features. They may also opt to continue their professional development through further specialised training, keeping up to date with the latest techniques and trends in the evolving field of carpentry and joinery.

Level 3

15+ months

Approximate on-programme training
(does not include EPA period)

£0 to £650

Maximum cost for non-levy employers and micro-businesses

£13,000

Maximum cost/funding for levy employers

CONSTRUCTION SITE SUPERVISOR

The Construction Site Supervisor Level 4 Apprenticeship is designed to prepare individuals for supervisory roles within the construction industry. This apprenticeship covers a wide variety of topics, including construction planning, site safety, quality control, project management, resource allocation, and effective communication.

Upon completion of the apprenticeship, apprentices will possess a thorough understanding of the construction industry and will be well-prepared to lead a team in diverse settings, such as housing developments, commercial buildings, and public infrastructure projects. They will have the ability to oversee all aspects of a construction project, from initial planning and budgeting to the final delivery of the project.

As a Construction Site Supervisor, they will play a critical role in ensuring that construction projects are completed safely, on time, within budget, and to the highest quality standards. Their expertise will be invaluable in promoting efficiency and productivity on the construction site, while simultaneously ensuring adherence to environmental and safety regulations.

HNC IN QUANTITY SURVEYING FOR ENGLAND

The Higher National Certificate (HNC) in Quantity Surveying for England is designed to provide students with a solid foundation in the principles and practices of quantity surveying in the construction industry. This programme focuses on core topics such as construction economics and sustainability, contract law, procurement, and financial management of construction projects. Students will learn how to manage project costs effectively, conduct feasibility studies, and prepare tender documents, all while adhering to regulatory and ethical standards. Upon completion of the HNC, graduates will have a thorough understanding of the roles and responsibilities of a quantity surveyor, including measuring and costing construction work, managing finances during projects, and negotiating and drafting contractual claims. They will be equipped to apply this knowledge to real-world scenarios, ensuring financial and legal aspects of construction projects are meticulously managed. As quantity surveyors, graduates will be integral to the financial and legal management of construction projects, ensuring cost-efficiency and compliance with legal standards. They will be prepared for roles in various sectors of the construction industry, from residential to commercial and public sector projects. This certification also paves the way for further educational pursuits or professional development within the field of quantity surveying, potentially leading to roles such as senior quantity surveyor or project manager.

HND IN MODERN METHODS OF CONSTRUCTION

The Higher National Diploma (HND) in Modern Methods of Construction is a specialised programme aimed at preparing students to embrace and implement the latest advancements in construction technologies and methodologies. This diploma focuses on topics such as construction design, sustainable methods of construction, digital construction techniques and applications, and alternative energy. Students will gain practical and theoretical knowledge in using innovative construction methods that enhance efficiency, reduce environmental impact, and improve the overall quality of construction projects. Upon completion of the HND, graduates will have a comprehensive understanding of contemporary construction practices and the technological innovations driving the industry forward. They will be adept at integrating modern construction methods into traditional projects, optimising construction workflows, and leading projects that adhere to sustainability standards and practices. As professionals in modern construction methods, graduates will play a pivotal role in transforming the construction landscape. They will be prepared to lead initiatives that incorporate cutting-edge technologies and sustainable practices, positioning them as valuable assets in construction management teams. This qualification also provides a pathway for further studies or specialisation in areas such as green building, construction technology, or project management, enhancing their career prospects and leadership opportunities within the industry.

SKILLS BOOTCAMPS

ACCELERATE SKILLS DEVELOPMENT WITH BOOTCAMPS

Skills Bootcamps provide swift and effective skills intervention, precisely addressing areas where your organisation or learning and development team identifies the need to enhance employee capabilities or integrate new skills and talent into your workforce. These courses are highly flexible and can be delivered in various methods to suit the unique needs of your workforce, including fully remote delivery, classroom-based instruction, and practical hands-on training, depending on the subject matter.

TALK TO US ABOUT DEVELOPING SKILLS BOOTCAMPS FOR YOUR ORGANISATION

We specialise in creating bespoke bootcamps designed to maximise the impact for your teams. Our tailored programmes ensure that your employees gain the relevant skills and knowledge needed to drive your organisation forward. Whether you require upskilling in specific areas or wish to onboard new talents with specialised training, we are here to help.

Tailored Learning: Our courses are developed in collaboration with employers and industry bodies to ensure they match industry needs, combining expert tuition with outstanding e-learning content and practical experiences.

Provide a New Service: For self-employed individuals, Skills Bootcamps can provide you with the knowledge and expertise to offer a new service and grow your business.

Eligibility Criteria: The bootcamps are open to adults aged 19 or over, who are either employed with their employer's support, self-employed, recently unemployed, or returning to work after a break. A reliable internet connection and suitable computing equipment are also part of the requirements.

For Businesses: Businesses seeking to upskill their workforce can benefit from these programmes by developing a skilled and loyal team, ready to meet the challenges of a rapidly evolving labour market.

Financial Flexibility: Skills Bootcamps are at no cost to the student but do have different employer funding requirements dependent on the size of the employer.

SKILLS BOOTCAMPS EXAMPLES

BOOTCAMP

Level 2 | 12 Weeks

Introduction to Retrofit Green Skills

The Introduction to Retrofit Green Skills Bootcamp is a comprehensive 12-week programme designed to equip participants with the essential skills and knowledge needed to excel in the growing field of sustainable building retrofitting. This Level 2 course is meticulously structured to ensure students not only understand the theory behind retrofitting but also gain practical, hands-on experience.

BOOTCAMP

Level 3 | 12 Weeks

Advanced Retrofit Green Skills

The Advanced Retrofit Green Skills Bootcamp is an intensive 12-week Level 3 course designed for those looking to deepen their expertise in the field of sustainable retrofitting. The curriculum is built on a foundation of advanced techniques and expands into the intricate details of installation and sustainability impact. Participants will complete the course with a robust understanding of advanced retrofit principles, prepared to lead in the industry.

BOOTCAMP

Level 3 | 12 Weeks

Construction Health Safety and Sustainability

The Construction Health, Safety & Sustainability Skills Bootcamp is a rigorous 12-week Level 3 programme tailored for professionals in the construction industry. The course is designed to instil a comprehensive understanding of the health, safety, and sustainability practices that are critical in construction environments. Through this course, participants will learn to effectively identify and manage risks, ensuring the well-being of all stakeholders and minimising the environmental impact of construction projects.

BOOTCAMP

Level 3 | 12 Weeks

Construction Project Management

The Construction Project Management Skills Bootcamp is a 12-week Level 3 programme designed to provide a solid foundation in the fundamentals of construction project management. This course offers a blend of theoretical learning and practical application, culminating in an optional qualification exam. Students will engage with key aspects of project management tailored specifically for the construction industry, setting the stage for effective leadership and execution of construction projects.

CITB FUNDING

The Construction Industry Training Board (CITB) plays a vital role in supporting the development of skills within the construction sector. One of its key mechanisms for achieving this is through funding and grant initiatives aimed at assisting construction employers in training their workforce.

CITB GRANT SCHEME

CITB offers grants to construction industry employers who invest in training for their employees. These grants contribute to upholding industry standards by ensuring that individuals are gaining the right essential skills necessary for the industry to succeed.

All employers registered with CITB can apply for a grant. They are available to employers of all sizes, whether you pay a levy to CITB.

CITB's Skills and Training Fund provides funding opportunities for investing in training initiatives. This fund offers extra incentives for accessing CITB grant-eligible training, catering to a range of activities. It enables customisation of construction or leadership and management training programmes to suit specific business needs and staff requirements.

This support equips businesses to enhance efficiency, seize growth opportunities, and motivate their teams, so that companies will be prepared for any future challenges.

YOU'LL BE ELIGIBLE TO APPLY IF:

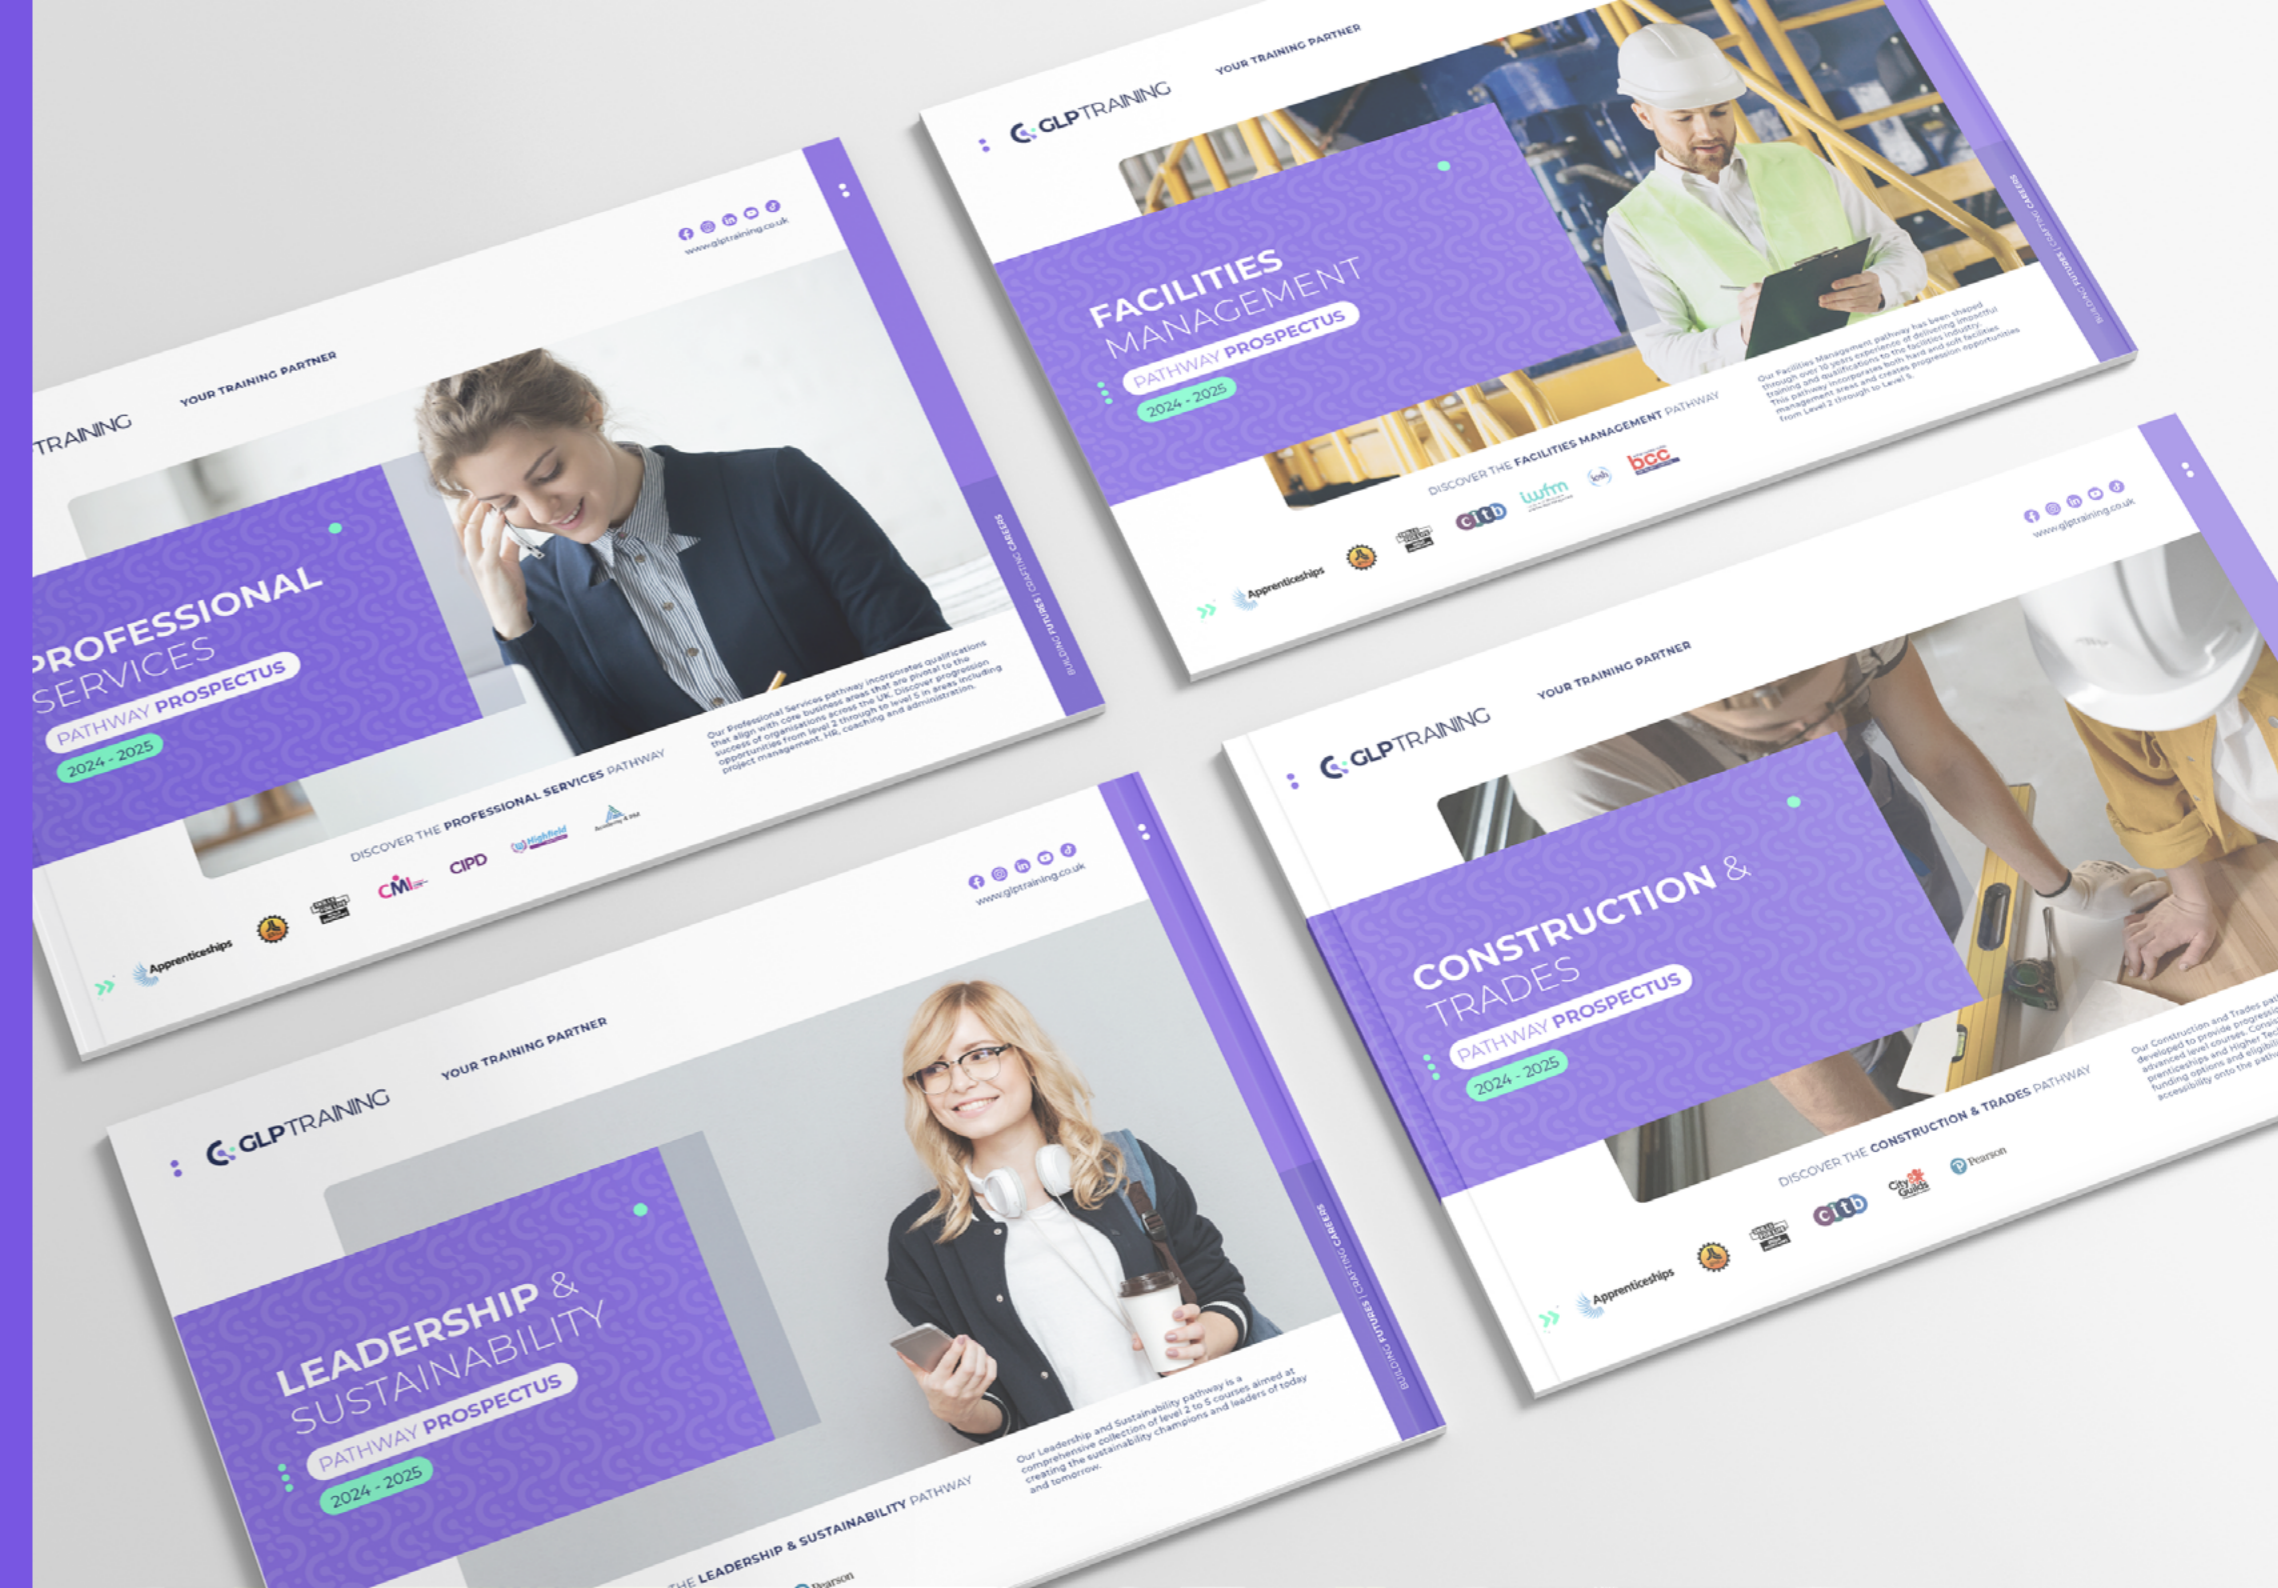

You are a CITB-registered employer and up to date with your Levy Returns
Any previous project paid for by the Fund has been signed off as complete.

HOW MUCH CAN YOU APPLY FOR?

You can apply for funding related to how many direct employees you have:
